All other animals must have tested negative in respect of TB and CA as close as possible to but not more than three months prior to the sale date.

Semen may only be offered if accompanied by a DNA certificate.

Where females are in calf to “multi-sires”, the identity numbers of the possible sires used must be supplied and each possible sire must have a DNA profile (Lab number) on record. All bulls used in the herd must have a DNA profile recorded.

3. Keuring \ *Screening*

3.1 Alle diere moet deur twee inspekteurs gekeur word (waarvan ten minste een ‘n senior is) wat deur die genootskap afgevaardig is.

All animals must be screened by two inspectors (of which at least one must be a senior) appointed by the society.

3.2 Inspekteurs verantwoordelik vir die keuring mag nie diere by die betrokke veiling verkoop nie.

Inspectors officiating at a sale screening may not sell animals on the same sale.

3.3 Die keuring moet die dag voor die veiling by die veilingsterrein gedoen word.

The screening must be done on the day prior to the sale at the sale venue.

3.4 Alle toepaslike dokumentasie (veearts sertifikate en geboortekennisgewingslyste van kalwers aan voet) moet beskikbaar wees tydens keuring. Waar sodanige dokumentasie nie beskikbaar is nie, moet die inskrywings van die betrokke diere teruggetrek word.

All applicable documentation (veterinary certificates and birth notifications lists of calves at foot) must be presented at screening. Where such documentation is not available the entries of the relevant animals must be withdrawn.

3.5 Tydens die veilingskeuring word die identifikasie van die beeste bevestig, en vir funksionele foute en rasegtheid gekeur. **Die genootskap is nie betrokke by enige reëls soos deur die organiseerders neergelê wat betref ander standaarde van beeste of enige ander addisionele reëls.**

The purpose of screening is to verify the identification of the relevant animals and to inspect them for functional faults and breed purity. ***The society’s mandate is to apply the breed standards as laid down in it’s constitution and therefore will not be involved in laying down extraordinary rules and minimum standards that may be determined by the organisers of any specific sale.***

3.6 Slegs ‘n verteenwoordiger van die afslaers mag die genomineerde inspekteurs tydens die veilingskeuring vergesel.

The appointed inspectors may only be accompanied during screening by a representative of the auctioneering firm.

3.7 Die inspekteurs sal die afslaers verwittig van diere wat afgekeur is. **Die inspekteurs se beslissing is finaal en geen appèlinspeksies sal toegelaat word by die veiling nie.** Diere wat afgekeur is, se registrasie sal onmiddelik opgeskort word. 'n Skriftelike appèl kan binne 21 dae deur die verkoper aangeteken word by die kantoor. 'n Voorgeskrewe fooi is betaalbaar en die appèlinspeksie sal tydens die volgende jaarlikse inspeksie van die teler gedoen word.

The inspectors will advise the auctioneers of the animals that failed the screening. ***The findings of the inspectors will be final and no appeal inspections will be allowed at the auction.*** *The registration of these animals will be suspended. A written appeal can be lodged by the seller, at the office, within 21 days. A prescribed fee is payable and the appeal inspection will be done with the breeder's next annual inspection.*

Afgekeurde vroulike diere kan steeds as ongeregistreerde diere verkoop word, maar beslis nie onder die beskerming van die genootskap nie en mits dit duidelik so afgekondig word. Hierdie diere wat dan as ongeregistreerde diere verkoop word se registrasiesertifikate sal gekanselleer word deur die inspekteur en mag nie weer heringestel word nie.

Geen ongeregistreerde bulle mag verkoop word op dieselfde perseel waar 'n veiling onder die beskerming van die Genootskap plaasvind, op dieselfde dag nie. Dit sluit in manlike diere wat tydens die veilingskeuring afgekeur is.

Female animals that failed the screening may be sold as unregistered animals, but definitely not under the auspices of the Society and only if this condition has been clearly announced. The registration certificates of such animals sold as unregistered animals must have been cancelled by the inspector and may not be re-instated.

No unregistered bulls may be sold on the same site where an auction under the auspices of the Society occurs on the same day. This includes males that are rejected by a sale screening.

4. Verpligtinge van die afslaer/s \ *Duties of the auctioneer*

4.1 Die afslaer/s moet die toepaslike vorm wat hy/sy/hulle ontvang mbt tot die veiling volledig invul en geteken terug besorg aan die genootskap.
The auctioneer\s must complete the applicable form submitted to him\her\them in full and return it to the society duly signed.

4.2 Omdat dit 'n "onder beskerming" gebruiksreg veiling is, moet die veilingspamflet en alle advertensies **voor** publikasie in die media aan die genootskap voorgelê word vir goedkeuring en die embleem moet tesame met die volgende duidelik op die pamflet aangebring word: "onder beskerming van die Nguni Beestelersgenootskap."

By virtue of it being a sale presented under the auspices of the society, the sale pamphlet as well as all advertising must be submitted to the society for approval prior to publication and the society logo as well as the words "under the auspices of the Nguni Cattle Breeders' Society" must appear prominently on the sale pamphlet.

4.3 Die reëls vir veilings onder beskerming en ander inligting soos ontvang van die genootskap moet voor in die katalogus gepubliseer word.

The rules pertaining to sales presented under the auspices of the society and other information submitted by the society must be published at the front of the catalogue.

4.4 Dit is die verantwoordelikheid van die afslaer om die volgende binne 2 weke na afloop van die veiling by die genootskap in te dien a) die veilingsrol, b) Inspeksieverslag c) vrugbaarheids- en dragtigheidssertifikate.

Vir punt 4.4.b benodig die Genootskap die inspeksieverslag wat geteken is deur die inspekteurs wat die keuring gedoen het, sowel as die verkoper(s), waarop die dier se I.D.- en lotnommers verskyn.

The auctioneer is responsible for submitting the following documentation to the society within two weeks of the sale –
(a) vendu role (b) inspection report (c) fertility and pregnancy certificates.

For point 4.4.b the Society requires the inspection report that is signed by the screening inspectors, as well as the sellers, where both the identity- and lot numbers of the animals appear.

4.5 Die lidnommers van geregistreerde telers wat diere aankoop moet by registrasie van die kopers aangevra word en dan op die vendusierol aangebring word by diere wat deur hierdie telers aangekoop word.

The membership numbers of buyers that are registered breeders must be obtained and included in the detail of animals purchased by such breeders and included in the vendu role.

5. Algemeen \ *General*

5.1 Veilings wat binne ‘n 300 km radius van mekaar plaasvind, mag nie op dieselfde dag plaasvind nie. Een dag moet verloop tussen Internet veilings se sluitingsdatum . Gevestigde veilings en veilings van vorige jare sal voorkeur geniet by die bespreking van datums. Indien die organiseerders van 2 verskillende veilings egter ooreenkom en daartoe instem kan 2 veilings onder beskerming op dieselfde dag aangebied word.

Sales that will take place within a 300 km radius of each other, may not take place on the same day. There must be a time span of one day between the closing dates of Internet sales. Established and previous sales will receive precedence as regards the reservation of dates. However, should the organisers of two different sales agree thereto, such two sales may be presented under the auspices of the society on the very same day.

5.2 Die Nguniformaat veilingskatalogus maak voorsiening vir ‘n bylaag per teler\verkoper. Sodanige dokument wat deur die teler\verkoper geteken word sal die inspekteur bemagtig om sy pligte uit te voer en toestemming verleen dat die diere wat onder sy\haar naam ingeskryf is, verkoop en aan die nuwe eienaar oorgedra mag word. Sodanige dokument sal, nadat dit onderteken is, aan die afslaers oorhandig word vir ondertekening. Let asseblief daarop dat ‘n veearts-sertifikaat nog steeds benodig word vir bevestiging van TB- en BM-vrye status sowel as dragtigheidsstatus.

The Nguni format for sale catalogues provides for an annexure per breeder\seller. Such document signed by the breeder\seller will authorise the inspector to carry out his duties and will also give permission for the transfer of the animals entered and sold in his\her name to the new owner. Such document will, subsequent to it having been signed, be handed to the auctioneers for their signature. Please note that a veterinary certificate is still required for the verification of TB and CA free status as well as the pregnancy status of the relevant animal.

5.3 Geen ander inspeksie mag tydens veilingskeuring gedoen word nie. M.a.w. net geregistreerde (voorheen goedgekeurde) diere mag aangebied word, behalwe ongespeende kalwers.
Die implikasie hiervan vir voornemende verkopers is dat hulle vroegtydig diere moet voorlê vir inspeksie ‘of tydens jaarlikse inspeksie ‘of by ‘n spesiale inspeksie.

No other type of inspection may be done during sale screening – in other words, only registered (previously inspected) animals may be presented with the exception of unweaned calves. The implication is therefore that potential sellers must ensure that their animals are presented for inspection well ahead of time – either during the annual inspection or at a special inspection.

5.4 Vir alle veilings onder beskerming, gehou in die RSA, sal die genootskap kwalifiseer vir ‘n ½ % verkoopskommissie. Hierdie kommissie moet binne twee weke na afloop van die veiling aan die Genootskap oorbetaal word.

The society will receive a ½ % sales commission in respect of all sales presented under the auspices of the society in the RSA. This commission must be paid to the Society within 14 days after the sale.

Indien daar vir ‘n veiling aansoek gedoen word om onder die beskerming van die Genootskap plaas te vind en die veiling word gekanselleer, maar vind wel plaas nie onder die beskerming van die Genootskap nie, sal ‘n bedrag van R1 500 van die verkopers (veilings-koördineerder) verhaal word. Klubs sal vrygestel word van hierdie fooie, met die nodige redes van kansellasie.

If there was an application for an auction to take place under the auspices of the Society and the auction were cancelled, but does take place, an amount of R1 500 will be claimed from the sellers (sale co-ordinator). Clubs will not be held responsible for the costs, if there is sufficient motivation.

5.5 Vals aanbieding: Alle diere wat geadverteer word moet aangebied word en die genootskap behou die reg voor om veearts sertifisering te eis in die geval van onttrekkings, behalwe in die geval van die dood en gevolglike kansellasie van die dier.

False offering: All animals advertised must be presented and the society reserves the right to demand veterinary certification in respect of withdrawals, except in the case of the death and subsequent cancellation of an animal.

5.6 Alle aansoeke vir ongewone veilings (byvoorbeeld: internet veilings) moet vroegtydig en skriftelik aan die Raad gerig word, sodat praktiese reëlings getref kan word met die oog op die toepassing van die beginsels vervat in hierdie dokument. Die kostes (ingesluit veiling keurings) van hierdie veilings sal direkte kostes vir die verkoper wees.

All applications for unusual sales (for example: internet sales) should be submitted timeously and in writing to the Council with the view to the practical application of the principles contained in this document. The costs (included sale screenings)for these auctions will be direct costs for the seller.

5.7 Alle Veearts dokumentasie vir Internet veilings moet deur die kantoor ontvang word twee weke voor die begin van die Internet veiling. Hierdie dokumentasie sluit in: Geslagsgeskiktheid (Eksterne genitalië, Interne genitalië (rektaal ondersoek), Makro- en mikroskopiese evaluasie van semenmonster) by bulle asook sertifikate vir die toets van Trichomoniase, Vibriose, BM en TB (bulle en vroulike diere). Diere sal nie verkoop kan word indien hierdie dokumentasie betyds ontvang word nie.

All veterinary documents for Internet auctions must be received by the office two weeks before the beginning of the Internet auction. This documentation includes: Breeding soundness (external genitalia, internal genitalia (rectal examination), macro-and microscopic evaluation of semen sample) in bulls and certificates for the testing of Trichomoniasis, Vibriose, CA and TB (males and females). Animals will not be sold if the documentation is not submitted in time.
